City of Eureka
APPLICATION FOR APPOINTMENT TO
THE CITY COUNCIL

Supplemental Questionnaire

1. Why do you want to be appointed to the City Council? What do you feel you will bring to the position?

I have lived in Eureka since 1985 and Humboldt County all of my life. I believe in giving back to the community and serving as a City Council member would be a great opportunity to do that. I formerly served on the Eureka Parking Place Commission as Chair and on the Eureka Housing Advisory Board as Vice Chair. I currently serve on the Eureka Planning Commission as Vice Chair. I feel I have a strong grasp of the issues facing our city. I know a lot of people here so I have the ability to tap into information and locate volunteers to help where needed. Eureka needs leadership that will bring long range benefits to our city. I will bring to this position a direct, professional, and focused style with lots of energy so that we can deal with the complex issues facing Eureka.

2. Look ten years into the future and describe what you want this city to look like and why?

Eureka is the business, retail and industrial hub of the county. It is the center of government services and an attractive tourist destination. We also have many wonderful and attractive residential areas. It's important that it remains that way. My time on the council will be devoted to make sure that happens. We need to make sure that business is welcome here but not to the detriment of residential life or our environment. We need to ensure we have nature and services that attract visitors but not at the expense of needed growth. We must develop our harbor and waterfront. All of our government agencies must work together, not in conflict to get this done.

3. What do you see as the biggest challenges facing this city today?

There are several challenges:

- Hiring a new city manager.
- Making sure we have adequate revenue to provide needed services and that these revenues are used wisely in high impact areas. We need more money to attract, train & retain high quality people for our Police Force, Fire Department and Public Works. We also need to provide them with better technology, tools, equipment, wages and benefits.
- We need to be more effective in combating crime, the homeless population, illegal drug use and other areas for people with special needs. I have been working in this area for many years with my rental properties and at our Church with Celebrate Recovery.
- We also need to attract, retain and expand our business base that provides the jobs and revenues needed to maintain our quality of life. Including finding other sources of income such as grants.

4. What do you feel needs to be done to maintain and enhance the City's economic health?

There are several things that could be done to improve our local economy. We need to do a better job of improving harbor trade and completing our waterfront projects. Next, we need to stay up to date on high speed internet & wireless communications. We need to make sure our roads, waste water treatment and infrastructure are maintained. We need to develop a world class system of multi model transportation options including an integrated system of trails.

5. What would be your three top priorities for improving our community's quality of life?

First, I would like to encourage Old Town area development on the Boardwalk, Waterfront and the Balloon Tract to make this the retail, business and residential center it has the potential to become. Second, to work in closer cooperation with the Harbor District to improve the viability of the Port. We need to partnership with other cities to make effective use of our Foreign-Trade Zone efforts. Finally we need to do something about the homeless issue. We really need to tackle this problem.

**City of Eureka
APPLICATION FOR APPOINTMENT TO
THE CITY COUNCIL**

Supplemental Questionnaire

1. Why do you want to be appointed to the City Council? What do you feel you will bring to the position?

Public service is very important to me and my years of experience in various community organizations has allowed me to make connections with community members from diverse backgrounds. As a former reporter (cont'd)

2. Look ten years into the future and describe what you want this city to look like and why.

I'd like to see more light industry developed. I'd like to maintain and encourage continued support of the arts, entertainment and tourism. We need good jobs but I think there are many things that make Eureka a great place to live and work.

3. What do you see as the biggest challenges facing this city today?

Some traffic issues need more attention - I'd also like to see even more beautification projects. I think some public safety and law enforcement challenges would be easier to address if traffic problems and blight are handled.

4. What do you feel needs to be done to maintain and enhance the City's economic health?

It's been said before, but air and other transportation in and out of the county need to be more convenient. There's also a perception the city isn't business friendly - that perception needs to be changed.

5. What would be your three top priorities for improving our community's quality of life?

While our traffic problems don't compare to those in larger communities, there is room for improvement. Like everyone, I see a need for more good-paying, private sector jobs. I think the perception that the city isn't business friendly needs to be changed. **Attach additional pages if necessary**

1. What do you feel you will bring to the position?

As a former reporter, I believe I listen to all sides of an issue and don't have strong opinions on most issues. As a long-time Eureka resident, I'm familiar with our history, have a lot of personal and professional relationships and genuinely care about what is best for the community.

City of Eureka
APPLICATION FOR APPOINTMENT TO
THE CITY COUNCIL

Supplemental Questionnaire

1. Why do you want to be appointed to the City Council? What do you feel you will bring to the position?

A strong sence of duty to my Community.
 To bring a blue collar - small business representation
 to the Council.
 The ability to hear + work with a wide variety of
^{Interests + positions}

2. Look ten years into the future and describe what you want this city to look like and why.

I would love to see a diversified, vibrant economy
 that is less dependent on tourism + the underground econo
 with a responsible citizenry who not only demand their ~~rights~~
 rights but accept the responsibilities that go along with it.

3. What do you see as the biggest challenges facing this city today?

Crime Driver - bike - pedestrian education
 Poverty Infrastructure
 Homeless

4. What do you feel needs to be done to maintain and enhance the City's economic health?

We need to promote that we are open to new biz
 not just tourism, but more diversified, + export of
 finished products + less raw mat.

5. What would be your three top priorities for improving our community's quality of life?

Reducing crime - inc petty crime that appears to go
 unpunished becaus of Jail overcrowding.
 Reminding people that it is their responsibility to help
 improve their neighborhoods.
