Press Release:

The health and safety of our students and staff are our top priority.

Fortuna High School is reporting that another student has tested positive for COVID-19. We have had a total of two (2) students test positive this week. These COVID transmissions did not occur at the high school.

Following our mitigation plan, the three classes affected by the two positive cases have been moved to distance learning through the quarantine period. The students and teachers in the affected classes were contacted and are in quarantine. The school is collaborating with Humboldt County Public Health.

The principal has notified the parents of the students in the classes affected by these cases.

We would like to thank Humboldt County Public Health for their swift response and guidance to assure the safety and well-being of our community.

Glen Senestraro
Superintendent
