Klamath	USG	USG	Red Salmon Complex
Eureka	USG	USG	Ноора
Weed	USG	Moderate	Willow Creek
Yreka	USG	Moderate	Eureka

Fire: The NWS has issued a **Red Flag Warning** through tomorrow morning. Dangerous burning conditions with very active fire behavior is expected. Extremely dry fuels combined, with wind, hot and dry weather will promote fire growth and significant smoke production.

Smoke: Heavy smoke from the Red Salmon Complex will be transported off to the west and southwest of the fire today due to the strong northeast winds over the region. Communities in the Klamath River drainage are likely to see heavy smoke impacts throughout the day and into tomorrow. Eureka and the coastal communities may see degrading air quality due to a strong offshore wind that may bring smoke to the surface in that area. Communities to the east of the fire are seeing heavy smoke this morning but should see improvement throughout the day.

Air Quality Index (AQI)	Actions to Protect Yourself	
😑 Good	None	
😑 Moderate	Unusually sensitive individuals should consider limiting prolonged or heavy exertion.	
🛑 USG	People within Sensitive Groups* should reduce prolonged or heavy outdoor exertion.	
🛑 Unhealthy	People within Sensitive Groups* should avoid all physical outdoor activity.	
Very Unhealthy	Everyone should avoid prolonged or heavy exertion.	
Hazardous	Everyone should avoid any outdoor activity.	

Disclaimer: Forecasts may be wrong; use at own risk. Use caution as conditions can change quickly. See your health professional as needed. Smoke sensitive groups should take appropriate precautions.
