Red Salmon Complex UPDATE

Thursday, September 10, 2020

Fire Information: (530) 316-1042

Email: 2020.RedSalmon@firenet.gov

Total Acres	Containment	Crews	Engines	Dozers	Helicopters	Water Tenders	Total Personnel
77,133	18%	9	45	6	7	25	799

The Red Salmon Complex is burning on the Klamath, Six Rivers, and Shasta-Trinity National Forests within Humboldt, Siskiyou, and Trinity Counties. The Hoopa Valley Tribe is now part of the joint delegation of authority with the three National Forests. The South Central Sierra Interagency Incident Management Team 14 is managing this incident. Team 14 will continue to work closely with the Yurok Tribe, the Karuk Tribe, and local community liaisons.

Current Situation: All tactical firing operations were completed by the early evening hours. Fire crews continued with holding and mop-up operations through the night on the west side of the fire, while fire spread was primarily in the southwest.

Fire crew efforts will be focused today on direct attack of the fire where possible and safe to do so, the construction of indirect fireline and prepping for firing operations. The 10N02 Road will serve as a primary line for containing the fire east of the Hoopa Valley Reservation. Mastication equipment will be clearing fuels around Horse Trail Ridge in anticipation of future firing operations. There is still a critical need for suppression resources to continue prepping existing lines and build new fire containment lines, as resources are stretched extremely thin throughout the state and pacific northwest.

Weather: High pressure over the area will lead to continued hot and dry weather through the end of the week. Low humidity recoveries at night with low relative humidities will persist. Smoke from fires across the region will pass overhead, at times potentially shading all or some portions of the complex.

Air Quality: Heavy smoke from the Red Salmon Complex will combine with smoke from other fires in the area and affect the entire forecast zone. Communities that are closer to the fire may see levels towards the Very Unhealthy category with potential periods into Hazardous.

Area Evacuations: The Trinity County Sheriff's Office has issued an evacuation order for the community of Denny: THIS IS A MESSAGE FROM THE TRINITY COUNTY SHERIFFS OFFICE. THERE IS AN EVACUATION ORDER NOW IN PLACE FOR THE DENNY COMMUNITY TODAY 09-09-2020. A TEMPORARY EVACUATION POINT HAS BEEN ESTABLISHED AT THE BURNT RANCH SCHOOL.

National Forest Closure Areas: The US Forest Service Pacific Southwest Region announced yesterday the temporary closure of all National Forests in California. The Red Salmon Fire Forest Closure Area became effective on August 8, 2020 under Forest Supervisor's orders on the Klamath, Shasta-Trinity, and Six Rivers National Forests. As hunting seasons open, hunters are reminded the closure is in place for their safety as well as the safety of firefighters. Complete closure information is available on InciWeb for the Red Salmon Complex.
